SUMMARY

Motivated and detail-oriented B.Tech student in Electronics & Communication Engineering with a strong interest in Industrial Automation, Robotics, Embedded Systems, and Electronics. Hands-on experience in academic projects involving sensors, automation, and control systems. Eager to begin a professional career in a growth-oriented organization where I can apply my technical knowledge, continuously learn new technologies, and contribute effectively to organizational success.

EDUCATION

SAGE University, Indore
Bachelor of Technology (B.Tech) - Electronics & Communication Engineering *Currently Pursuing*

Sankalp Public Higher Secondary School Timarni, Harda, Madhya Pradesh
Higher Secondary (Class XII)

Sankalp Public Higher Secondary School Timarni, Harda, Madhya Pradesh
Secondary (Class X)

EXPERIENCE

Industrial Automation

Industrial Training

- Gained practical exposure to industrial automation systems and manufacturing processes.
- Learned the fundamentals of industrial control systems and automation workflows.
- Developed an understanding of industrial safety standards and automation equipment.

PROJECTS

Smoke Detector | Designed a smoke detection system using sensor technology to detect fire hazards and activate an alarm for improved safety.

Rover | Developed a remotely controlled rover capable of navigation and obstacle movement using electronic control systems.

Radar System | Built an ultrasonic sensor-based radar system capable of detecting nearby objects and displaying their position.

Automatic Plant Watering System | Designed an automated irrigation system that monitors soil moisture and waters plants automatically, improving water efficiency.

TECHNICAL SKILLS

Industrial Automation
PLC Fundamentals
Embedded Systems
Robotics
Electronics & Communication
Sensors & Actuators
Circuit Design & Analysis
Industrial Safety Basics

MS Office
Problem Solving
Teamwork & Communication

ACHIEVEMENTS

- Developed a Robotic Cell model demonstrating automation concepts. - Worked on Safety Systems in Industrial Robots to understand industrial safety mechanisms. - Successfully completed multiple electronics and automation-based academic projects.

STRENGTHS

- Quick Learner - Strong Analytical Thinking - Positive Attitude - Self-Motivated - Team Player - Adaptability - Time Management

LANGUAGES

- Hindi - English

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.
